# About the Speakers

## Neal O'gorman

Having graduated from Electronic Engineering in UCD, Neal has gone on to become a serial entrepreneur with Artomatix being the 3rd company he has founded – the first was acquired by Agilent Technologies in 2006. His second company was a social games company that had an acquisition offer from one of the top social games companies in the world.

## Patricia Scanlon

Dr. Patricia Scanlon is the Founder and CEO of SoapBox Labs which has developed a proprietary cloud based speech technology platform specifically for young kids aged 4-10. Patricia has 20 years experience working across academia and industry, having held positions with Columbia University in New York, IBM T.J. Watson Research Centre Labs, Alcatel Lucent. Four years ago Patricia made the leap from employee to entrepreneur and has never looked back.

## Brett Meyers

An Australian electronic engineer in Dublin. Brett is the CEO and co-founder of CurrencyFair, one of Ireland's hottest startups. Founded in 2009, CurrencyFair allows individuals and businesses to exchange currencies and send funds to bank accounts worldwide, using a unique marketplace model. Brett et al have raised \$25m from EI, Frontline Ventures, and two London based VC's, Octopus Ventures and Proxy Ventures.
